

Wobbler arms PVC/PET

FINGER-LIFT – white paper cover, easy and quick to peel off, doesn't electrify

Estyma produces wobblers based on our own original production process. We offer highest quality product at incomparably low prices. Wobblers are produced from high quality transparent double-sided PVC foil with self-adhesive tape fixed to arm ends for standard surfaces (PET wobbler). Available also with self-adhesive double sided foam tape (SPEC wobbler) used for rough surfaces.

Available types of wobbler arms:

- Type 015/100 – the lightest wobblers,
- Type 025/140 – light wobblers,
- Type 025/170 – light wobblers,
- Type 030/200 – heavy wobblers,
- Type 030/160 – the heaviest wobblers.

If you are unsure which option to choose, we are ready to help.
